SUITABLE FOR:

Fuels, light oils,
medium oils & other
compatible liquids

TANK CONNECTION:

3/4"

OPTIONS:

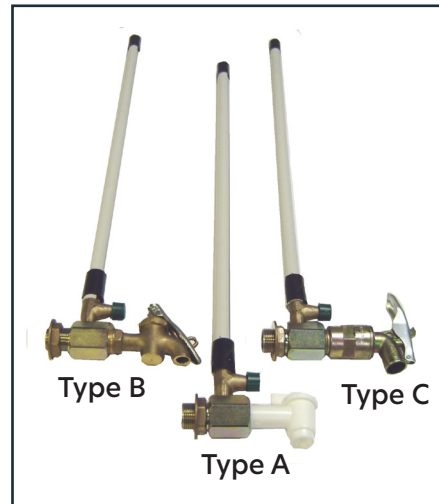

METAL /
PLASTIC

Product Description

Our versatile 3/4" Drum Gauges are a trusted solution for precise and reliable liquid level monitoring in various industrial settings. Available options of both plastic and metal taps, these gauges are designed to meet your specific needs.

Our 3/4" Drum Gauges are equipped with our own PVC sight tube with rigid UPVC shield with a length of 2ft / 61cm to ensure accurate and consistent liquid level readings. Whether you're monitoring chemicals, oils, or other liquids, you can rely on these gauges to provide precise measure-

Suitable for metal and plastic drums which have a 3/4" BSP socket. The gauge will give a clear level of contents of the drum/ container.
