PAGE

1/1

Product Description

Giuliani Anello is an Italian manufacturer who have produced these high quality inline heating oil filters for over 50 years.

Strainer filter for diesel, fuel oil and air with aluminium cover and bowl.

General purpose metal bowled filters for use with fluids not aggressive to the filter's component materials.

Comes as standard with 15micron paper filter element.

Main Features

- Strainer filter for diesel, fuel oil and air
- Aluminium cover and bowl
- 10mm Compression fitting available
- 3/8" threaded connections
- Maximum temperature: 90°C
- 100 Micron S/S or 15 micron paper elements

Other Features

- **Clean and Efficient Fuel Supply:** Protects your heating system by removing dirt and contaminants from your heating oil, ensuring smooth operation and better fuel economy.
- **Durable Construction:** Made with high-quality materials for a long lifespan and minimal maintenance.
- **Easy Installation:** Designed for straightforward installation in various heating systems.
- **Peace of Mind:** Provides consistent performance and helps reduce wear and tear on your heating equipment.
