

## PRODUCT SPECIFICATION SHEET

Inpro OUF 88 Maxi Oil Lifter - 12L Reservoir

### BRAND:

### FEATURES:

'Auto' fill

### SIZE:

3/8"

## Product Description

OL-12L Oil Up Feeder used to ensure a head of oil above the burner to provide a gravity feed supply. Inbuilt pump and micro switches call for oil when the reservoir gets low and switches itself off when full.

Maximum lift is 8 metres and the maximum distance to the oil tanks is 100 metres. Oil lifters can also be fitted with a leak detection tray, this will isolate the oil pump from emptying and refilling the reservoir if it detects a leak.

Oil Lifters can be fitted inside the building as well as outside. If the unit is being fitted inside it should be in a fire walled, ventilated area. If it is being fitted outside the building it needs to be in a weatherproof box as it is not IP rated.

## Features

- Auto' fill on initial priming of the unit. PCB surge protector
- Inlet & outlet connection 3/8" BSP
- Diagnostic flashing lights show if an alarm condition occurs
- Option leak detector & drip tray available
